Software Engineer (Python/Django)

Amplify Technologies is a marketing technology solutions developer based in Atlanta, Georgia. We develop and support custom-designed, private-label data, analytics and marketing automation products.

We have developed a cutting edge, Django-based marketing automation product that is up, running and growing fast – and we are looking for additional developers to help us expand!

Our ideal candidate is an experienced, full-stack Python developer with a true “can-do” attitude and the ability to creatively attack technical problems. This role will collaborate directly with the product manager and the operations team to craft new system features, improve the capabilities of the platform and amplify user experience. It’s an opportunity to test and shape your professional potential - you’ll have significant impact on the products you develop and influence on the direction of the company. At Amplify your technical ability and creativity will be allowed to really shine.

Our company culture is entrepreneurial and practical; our working style collaborative. It’s an environment that demands a personality that can take initiative and lead and rewards a good team player. If you’re not afraid to roll up your sleeves and get your hands dirty you’ll fit right in. Code Divas need not apply.

Skills and experience we’d like you to have...

- 5 years of Web development experience using Django, Python, JavaScript, HTML5, and CSS to build fully-tested, well-documented code
- Advanced knowledge of Python including object-oriented programming
- Experience building distributed systems (e.g. Celery, ZMQ, HTTP or similar tools)
- Advanced knowledge of Django – beyond models, views, URLs, and templates, you have written raw SQL, form sets, template tags & filters
- Experience building and consuming RESTful web services
- Caching, scaling, and front-to-back performance best practices
- Comfortable working in Linux environments
- Familiarity with NoSQL databases (e.g. MongoDB) a plus

The Software Engineer is a permanent, full-time position requiring residence in the Atlanta, GA area. Some of the benefits offered include:

- MacBook Air/Pro
- Competitive compensation
- Robust Healthcare Plan & Long Term Disability
- On-site gym
- Stand-up/Sit-down workstations
- Flextime schedules
- Work-Life balance
- Continuing education reimbursement

If you’d like to be considered for this position, please send an email to careers@amplifynation.com with a note about your interest and resume attached.
